# Top Realtors

(by volume)

■ In today's downbeat real estate market, it's more important than ever to get the very best professional assistance possible. Whether you are looking to buy or sell a home, the right Realtor can make a world of difference when navigating today's complex real estate environment.

That's why we at *Hartford Magazine* decided to do some of the hard work for you. The following pages detail the names of the top Realtors in the area. The lists were compiled using 2008 sales data from the Multiple Listing Service.

The first list (at right) is that of the top agents in Greater Hartford by total dollar volume. These are the heavy hitters who moved the most residential real estate last year.

Each of the county's 29 cities and towns is then broken into three categories: top overall agent with combined listings and sales, top three listing agents and top three selling agents. (In real estate speak, you hire a "listing agent" to sell your home and "selling agents" are hired to help you buy a home.) Again, this information represents total sales by dollar volume, and not the number of units sold.

We sought the very best Realtors in the residential marketplace, so only sales of single-family, multi-family and condominiums were totaled. Additionally, Realtors associated mainly with specific developments or projects were excluded, as you could not hire most of them to work for you.

After the lists you'll find a special advertising section with more information about many of the winners.

We hope you learn from and enjoy this section and wish you happy (house) hunting... or selling!
